

## Toei Bus to Offer Free Passenger Wi-Fi Service

It is announced today that Toei Bus is to provide high-speed and high-capacity internet connection via Wi-Fi in line with the introduction of all-night bus service from December 20, 2013.

Toei bus will become **the first shuttle bus operator in Tokyo** to offer free Wi-Fi service to passengers.

### 1 Launching date and bus routes

Free Wi-Fi service will be available on routes "To 01" and "Shinya 01" (Shibuya - Roppongi - Shimbashi) from **Friday, December 20, 2013**.

The service will be gradually extended to all 1,452 vehicles owned by Toei Bus by the end of the fiscal year 2013.

### 2 Service contents

#### (1) Outline

Anyone can use free Wi-Fi service as many times as they wish (up to 180 minutes per session)

#### (2) Available languages

English, Chinese, and Korean are also available for the convenience of foreign tourists besides Japanese

#### (3) How to use

Please refer to the following page for the detailed procedures

### 3 Service provider

NTT Broadband Platform, Inc. (selected by a competition process)

"docomo Wi-Fi" service will be also available for subscribers to the "docomo Wi-Fi" service. For details, please visit the following website of NTT DOCOMO

URL: [http://www.nttdocomo.co.jp/service/data/docomo\\_wifi/](http://www.nttdocomo.co.jp/service/data/docomo_wifi/)

Please set your phone to vibrate and refrain from talking on the phone while on the bus.

Wi-Fi service may not be available in the mountain area of Tama or during vehicle maintenance.
